

TERM STRATEGIES

August 9, 2021

Honorable Mayor and City Council:

Tonight you have the opportunity to make a decision that will define the future of Sacramento. You have invested in many exciting new infrastructure projects and now you have the chance to invest in the people who need you the most.

This is a bold move and the first step in what we hope will be forward progress toward ending homelessness in our region and making all areas of Sacramento clean, safe and welcoming for all. This is the first phase in a marathon toward addressing causes of homelessness, but a series of safe, clean and maintained locations coupled with a partnership with Sacramento County to provide supportive services is critical.

We strongly support the adoption of the siting plan under consideration. We expect the same level of attention will be paid to plan implementation, offering meaningful services and ensuring neighborhood and business commitment are kept.

Thank you for your leadership

Robert Thomas

Mary Egan
